5.8 GHz wireless Audio Video Sender

Features:

- 5.8GHz antennas embedded into housing
- Transmit the crisp Audio/Video signal with radio frequency
- Remote control the A/V source with IR Extender
- Compatible with Camcorder or CMOS camera application
- NTSC/PAL video format available
- 8 selectable channels (Dip Switch)

Specifications:

Item	Sender	Receiver
Frequency (MHz)	5.725~5.865	5.725~5.865
Sender Power (dBm)	17	/
Receiver Sensitivity (min.) (dBm)	/	-86
Channel Customer	8 selectable	8 selectable
Input format	Available in NTSC or PAL	-
Output format	-	Available in NTSC or PAL
Remote control frequency (MHz)	433.92MHz	433.92MHz
IR carrier frequency (MHz)	32~38KHz	32~38MHz
Video/Audio Input Level	1 Vp-p	/
Video/Audio Output Level	/	1 Vp-p
Power Consumption (V/mA)	9/300	9/300
Input / output Connector	MINI DIN jack	MINI DIN jack
Operating condition	Indoor usage recommend	Indoor usage recommend
Operating Temperature (°C)	-10~+60	-10~+60
Dimension (mm)	148D×41W×126H	148D×41W×126H
Weight (kg)
